COURSE HIGHLIGHTS

- Review and update the full spectrum of topics in clinical neuro-ophthalmology including afferent (ischemic, inflammatory, infectious, compressive and hereditary optic neuropathies, select retinopathies, papilledema), efferent (diplopia and nystagmus), neuro-radiology and pupil dysfunction
- Lectures by experts in neuro-ophthalmology on clinical topics including giant cell arteritis, functional vision loss, diplopia, nystagmus, pupil, and neuroradiology
- Featuring neuro-ophthalmologic cases from the expert panel presented to the audience, employing concepts learned from the lectures
